Dear Fantasy + Folklore Fen:

This RR I haven't seen in almost
a year... I wonder what happened to it?

I'm still reading Erin Hunter's WARRIORS, Cat clan
books... there are a million of these, and they're good!!!

If you like cats in stories... and most fens do... these
are really good fantasy, talking animal stories...
I just got finished with The Sun Trail, one of the
Dawn of the Clans series... these explain how the
5 cat clans came to be when the group of cats came
down from the mountains in need of a good place for
cats to live with plenty of prey to eat... and a
lake nearby, trees, dens to sleep in, and high rocks
to climb on... the more important cats are: Gray Wing
+ his brother, Clear Sky, Tall Shadow, Cloud Spots, River
Ripple, + Wind Runner. These five are to become
important leaders in the 5 clans Skyclan, Shadowclan,
Thunderclan, Riverclan and Windclan----
